HOME PAGE

Landing Page

Landing pages are web pages designed to provide specific conversion targets. Here are some of the characteristics that exist on our landing page:

- **Headline dan Subheadline**
- **Navigation Bar**
- **Contact Information**

HOME PAGE

About Us

The “About Us“ page is a part of the website that we designed to provide information about our hospital, specifically Nusantara Hospital that can be understood by visitors about the background of Nusantara Hospital. Thus, this page is designed in such a way as to reflect our identity such as:

- Commitment to Exceptional Healthcare
- State-of-the-Art Facilities and Skilled Professionals
- Comprehensive and Personalized Healthcare
- Multidisciplinary Approach
- Patient-Centric Care
- Community Outreach Programs
- Commitment to Health and Well-being
- Appointment Scheduling and Contact

ABOUT US PAGE

About Nusantara Hospital

The Managerial Team page is a website or application component that provides information on a company's managerial team, including senior executives responsible for setting direction, leadership, and ensuring success. It showcases our backgrounds, credentials, and specializations, allowing visitors to learn about the company's success and the key roles they play in the organization.

ABOUT US PAGE

Managerial Team

The Managerial Team page is a website or application component that provides information on a company's managerial team, including senior executives responsible for setting direction, leadership, and ensuring success. It showcases our backgrounds, credentials, and specializations, allowing visitors to learn about the company's success and the key roles they play in the organization.

OUR DOCTORS PAGE

The “Our Doctors“ page is part of the website to provide information about doctors at Nusantara Hospital. The following are the key elements that can be found on this page:

- Doctor Profiles
- Visuals and Multimedia

LATEST NEWS PAGE

This page on our site is dedicated to providing the latest news and relevant information about the hospital. The following are some of the elements found on this page:

- New Articles
- Headlines and Summaries
- Publication Date
- Author and Source
- Read More

APPOINTMENT PAGE

On the “Appointment Page” page of our website, there is a section for patients to schedule an appointment with a doctor. The following are the key elements on the “Appointment Page” page on the Nusantara Hospital website:

- Appointment Booking Form**
- Availability and Scheduling Options**
- Doctor**

The screenshot shows a web browser window with the URL `127.0.0.1:8000/home`. The title bar says "localhost / 127.0.0.1 / hospitalnu" and "Nusantara Hospital - Official Web". The main content is titled "Make an Appointment". It contains the following form fields:

- "Your Full Name.." and "Your Email Address.."
- "mm/dd/yyyy" and a dropdown menu labeled "---Select Your Doctor---
- "Your Number.."
- A large text area labeled "Enter your message to the doctor.."

SUCCESS

When the patient has successfully made an appointment with the doctor, a flash message will appear on our website page to provide information that the appointment has been successful

FLASH MESSAGE

A screenshot of a web browser window titled "localhost / 127.0.0.1:8000/myappointment". The page displays a table of appointments with columns for Doctor Name, Date, Message, Status, and a "Cancel Appointment" button. A modal dialog box is overlaid on the page, asking "Are you sure you want to cancel this appointment?". The "OK" button is highlighted with a red arrow. The table data is as follows:

When a patient wants to cancel an appointment with a doctor, a flash message will appear on our website page to provide information to confirm whether the patient is going to cancel or not.

CANCEL

FOOTER

Footer on our website refers to the section that appears at the very bottom of every page on this website. The following are some of the elements that can be found on the footer of the Nusantara Hospital website:

- **Contact Information**
- **Site Navigation**
- **Social Media Links**
- **Privacy Policy and Terms of Use**
- **Copyright Information**
- **Back to Top Botton**

BACK-END HOME

Here is the back-end (admin) interface after the admin logs in. We kept the design simple.

Navbar:

There is a list box that when it clicked, allows the admin to logout.

Sidebar :

- There is a Nusantara Hospital logo.
- Profile section displays the admin's name.

Navigation section includes the following options:

- Add Doctor (To Add Doctor)
- Appointment (All Patient History Appointment)
- All Doctor (All Doctors List)

ADD DOCTOR

When you click on the “Add Doctor’ section, the Admin can add Doctor:

- Doctor Name
- Phone
- Department
- Room Number
- Doctor Image

The screenshot shows a web browser window titled "Nusantara Hospital - Admin" with the URL "127.0.0.1:8000/add_doctor_view". On the left, there is a sidebar with a user profile for "Nabila Zelin" (Admin) and navigation links for "Add Doctor", "Appointments", and "All Doctors". The main content area contains five input fields: "Doctor Name" (placeholder: "Write The Doctor's Name"), "Phone" (placeholder: "Write The Phone Numt"), "Department" (dropdown menu with placeholder: "--Select--"), "Room No" (placeholder: "Write The Room Numbe"), and "Doctor Image" (file input field showing "Choose File | No file chosen"). A "Submit" button is located at the bottom of the form.

ADD DOCTOR

Doctor Name: dr. M. Mursal, Sp. B, Fina

Phone: 08123456791

Department: General Surgery

Room No: 601

Old Image:

A screenshot of a web-based hospital management system. The page title is "Nusantara Hospital - Admin" and the URL is "127.0.0.1:8000/updatedoctor/49". A search bar at the top right contains the placeholder "Search products". On the far right, there is a user dropdown menu showing "admin". On the left, a sidebar titled "Navigation" includes links for "Add Doctor", "Appointments", and "All Doctors". The main content area displays a form for updating a doctor's information. The "Doctor Name" field contains "dr. M. Mursal, Sp. B, Fina". The "Phone" field contains "08123456791". The "Department" field contains "General Surgery". The "Room No" field contains "601". Below these fields is a section labeled "Old Image" with a small placeholder image icon.

ALL DOCTOR

UPDATE (Edit)

**It will be directed to the
(resources/views/admin/
add_doctor.blade.php)**

File Choose

Button

Alert Success

ALL DOCTOR

UPDATE (Edii)

Not only the image section, but the Admin can also change other sections such as Doctor Name, Phone Number, Department, and Room Number.

After that, when the “Submit” button is pressed, an alert will appear stating “Doctor details updated successfully.”

ALL DOCTOR

CODE (resources/admin/update_doctor.blade)

- Include the css + navbar + sidebar
- Alert Success + Script

```
16 |     </style>
17 |     @include('admin.css')
18 | </head>
19 |
20 | <body>
21 |     <div class="container-scroller">
22 |         <!-- partial:partials/_sidebar -->
23 |         | @include('admin.sidebar')
24 |         <!-- partial -->
25 |         | @include('admin.navbar')
26 |
27 |     </div>
28 |     <!-- container-scroller -->
29 |     <!-- plugins:js -->
30 |     | @include('admin.script')
31 |     <!-- End custom js for this page -->
32 |     <script>
33 |     var closeButton = document.getElementById('closeButton');
34 |     closeButton.addEventListener('click', function() {
35 |         var alertElement = closeButton.closest('.alert');
36 |         alertElement.style.display = 'none';
37 |     });
38 |     </script>
```

```
<!-- partial -->
<div class="container-fluid page-body-wrapper">

<div class="container" align="justify" style="padding:100px">

<!-- Alert success -->
@if(session()->has('message'))
<div class="alert alert-success">
<button type="button" class="close" data-dismiss="alert" aria-label="Close" id="closeButton">
<span aria-hidden="true">&times;</span>
</button>

{{ session()->get('message') }}
</div>
@endif
```

This line fetches the value of the 'message' key from the session and displays it. In Laravel, the session can be used to store temporary data across multiple requests, such as success or error messages.

CONTROLLER (routes/web.php)

```
// Admin Controllers (User Back-End)
Route::get('/showdoctor', [AdminController::class, 'showdoctor']);
Route::get('/deletedoctor/{id}', [AdminController::class, 'deletedoctor']);
Route::get('/updatedoctor/{id}', [AdminController::class, 'updatedoctor']);
Route::post('/editdoctor/{id}', [AdminController::class, 'editdoctor']);
```

This code block checks if a message exists in the session. If it does, it displays the message inside a <div> element. This is commonly used to show feedback to the user after performing an action, like updating a doctor's information. The message might inform the user about the success or failure of the operation.

ALL DOCTOR

- The **@csrf** directive generates a CSRF token, which is a security measure to protect against cross-site request forgery attacks.
- This is an HTML **<form>** element used for editing a doctor's information. The form's action attribute points to the URL **url('editdoctor', \$data->id)**, indicating that the form data will be submitted to that URL for processing. **['editdoctor']**

- This code adds a file input field to the form, allowing the user to upload a new image for the doctor. The **<input>** element has **type="file"**
- This code adds a submit button to the form. When the user clicks the button, the form data will be submitted to the specified action URL (in this case, **url('editdoctor', \$data->id)**) for processing. **['editdoctor']**

130  |       <th>Delete</th>
131  |       <th>Update</th>
132  |   </tr>
133  </thead>
```

- In this code example, `{{$doctor->name}}` is a placeholder that is likely meant to be replaced with the actual name of a doctor.
- The double curly braces `{{ }}` indicate that the value inside should be dynamically rendered or displayed.

ALL DOCTOR

CODE for Show Doctor Page
(resources/admin/showdoctor.blade)

Other Column Explanation

```
<tbody>
    @foreach($data as $doctor)
    <tr>
        <td>{{$doctor->name}}</td>
        <td>{{$doctor->phone}}</td>
        <td>{{$doctor->department}}</td>
        <td>{{$doctor->room}}</td>
        <td></td>
        <td><a onclick="return confirm('Are you sure you want to delete this?')" class="btn btn-danger" href="{{$url('deletedoctor', $doctor->id)}}>Delete</a></td>
        <td><a class="btn btn-primary" href="{{$url('updatedoctor', $doctor->id)}}>Update</a></td>
    </tr>
    @endforeach
</tbody>
</table>
<p>[ ]</p><p>[ ]</p><p>[ ]</p>
</div>
</div>
<!-- container-scroller --&gt;
<!-- plugins:js --&gt;</pre>
```

- This code displays an image of the doctor. The src attribute of the `` tag is set to `"doctorimage/{{$doctor->image}}"`. Here, `>{{$doctor->image}}` is a placeholder that will be replaced by the actual image URL or path specific to the doctor.
- This code creates a “Delete” button for the doctor. When clicked, it shows a confirmation dialog to confirm the deletion action. If the user confirms, the button’s href attribute points to the URL `url('deletedoctor', $doctor->id)`. The `$doctor->id` is the ID of the specific doctor record. [‘deletedoctor’]
- This code creates an “Update” button for the doctor. When clicked, it navigates to the URL `url('updatedoctor', $doctor->id)`. The `$doctor->id` is the ID of the specific doctor record. [‘updatedoctor’]

ALERT

APPOINTMENT

CODE for Show All User Appointment History Page
(resources/admin/showappointment.blade)

```
<span class="menu-icon">  
| <i class="mdi mdi-file-document-box"></i>  
</span>
```

The screenshot shows the Nusantara Hospital Admin dashboard. On the left, there's a sidebar with a logo, user info (Admin NH), navigation links (Add Doctor, Appointments, All Doctors), and a search bar. The main content area is titled "All Appointment History" and displays a table with two rows of patient appointment details. The table columns are Patients Name, Email, Phone, Doctor Name, Date, Message, and Status. The first row is for patient "Lola" with doctor "Dr. Adhi Kurniawan, Sp.JP-FIHA" and status "Approved". The second row is for "user" with doctor "drg. Agatha Sucita, A" and status "Cancelled".

Patients Name	Email	Phone	Doctor Name	Date	Message	Status
Lola	user1@gmail.com	012837176242	Dr. Adhi Kurniawan, Sp.JP-FIHA	2023-06-17	test	Approved
user	user@gmail.com	085717364589	drg. Agatha Sucita, A	2023-06-17	Checkup	Cancelled

This screenshot shows the "All Appointment History" page with the sidebar collapsed. The title "All Appointment History" is centered above a table. The table has columns: Patients Name, Email, Phone, Doctor Name, Date, Message, Status, Approved, and Cancelled. It contains the same data as the previous screenshot: one row for "Lola" with "Approved" status and one row for "user" with "Cancelled" status.

Patients Name	Email	Phone	Doctor Name	Date	Message	Status	Approved	Cancelled
Lola	user1@gmail.com	012837176242	Dr. Adhi Kurniawan, Sp.JP-FIHA	2023-06-17	test	Approved	Approved	Cancelled
user	user@gmail.com	085717364589	drg. Agatha Sucita, A	2023-06-17	Checkup	Approved	Approved	Cancelled

It will show all the Patients Appointment, the table is based on the XAMPP database “appointment”.

Admin can click the span so that the sidebar slide to the left, and the page will be expand and shown more clearly (button “APPROVED” & “CANCELLED”)

APPOINTMENT

CODE for Show All User Appointment History Page
(resources/admin/showappointment.blade)

```
resources > views > admin > showappointment.blade.php
 7 | <style>
 8 | .table-container {
 9 |   padding-top: 100px;
10 |   overflow-x: auto; /* Add horizontal scrolling if needed */
11 |
12 | .modern-table {
13 |   width: max-content; /* Use max-content to make the table fit its content */
14 |   border-collapse: collapse;
15 |   border: 1px solid black; /* Add a black border to the table */
16 |   margin: 0 auto; /* Center the table horizontally */
17 |
18 | .modern-table th,
19 | .modern-table td {
20 |   padding: 10px;
21 |   text-align: center;

25 |   border-right: 1px solid #ddd;
26 |
27 | .modern-table th {
28 |   background-color: black; /* Change the background color of table headers to dark */
29 |   color: white; /* Change the text color of table headers to white */
30 |   font-family: "Arial", sans-serif;
31 |   font-weight: bold;
32 |   border-top: none; /* Remove top border for table headers */
33 |
34 | .modern-table tbody {
35 |   background-color: white; /* Change the background color of the table body to white */
36 |
37 | .modern-table tbody tr:hover {
38 |   background-color: #f2f2f2; /* Change the background color of the hovered row to a lighter shade */
39 |
40 | </style>
```

```
resources > views > admin > showappointment.blade.php
 40 | .modern-table td {
 41 |   color: #333; /* Change the text color of table cells to a darker shade */
 42 |
 43 | .btn {
 44 |   display: inline-block;
 45 |   padding: 5px 10px;
 46 |   text-decoration: none;
 47 |   border-radius: 5px;
 48 |   cursor: pointer;
 49 |
 50 | .btn-primary {
 51 |   background-color: #007bff;
 52 |   color: white;
 53 |   border: none;
 54 |
 55 | .btn-primary:hover {
 56 |   background-color: #0069d9;
 57 |
 58 | .btn-danger {
 59 |   background-color: #dc3545;
 60 |   color: white;
 61 |   border: none;
 62 |
 63 | .btn-danger:hover {
 64 |   background-color: #c82333;
 65 |
 66 | .table-title {
 67 |   font-family: "Arial", sans-serif;
 68 |   font-size: 24px;
 69 |   font-weight: bold;
 70 |   margin-bottom: 20px;
 71 |
 72 | </style>
```

The following code is the new style we make so that the table design can be more differently than di other

APPOINTMENT

```
resources > views > admin > showappointment.blade.php

80   <body>
81   <div class="container-scroller">
82     |   |   <!-- partial:partials/_sidebar -->
83     |   |   @include('admin.sidebar')
84     |   |   <!-- partial -->
85     |   |   @include('admin.navbar')
86
87     |   |   <!-- partial -->
88
89     <div class="container-fluid page-body-wrapper">
90       <div class="table-container" align="center">
91         <h2 class="table-title">All Appointment History</h2>
92         <div class="table-responsive"> <!-- Add a responsive wrapper around the table -->
93           <table class="modern-table">
94             <colgroup> <!-- Add colgroup to set the width of the Cancelled column -->
95             <col style="width: 10%"><col style="width: 10%"><col style="width: 10%"><col style="width: 10%">
96             </colgroup>
97             <thead>
98               <tr style="background-color: black;">
99                 <th style="padding: 10px;">Patients Name</th>
100                <th style="padding: 10px;">Email</th>
101                <th style="padding: 10px;">Phone</th>
102                <th style="padding: 10px;">Doctor Name</th>
103                <th style="padding: 10px;">Date</th>
104                <th style="padding: 10px;">Message</th>
105                <th style="padding: 10px;">Status</th>
106                <th style="padding: 10px;">Approved</th>
107                <th style="padding: 10px;">Cancelled</th>
108              </tr>
109            </thead>
110
111          <tbody>
```

CODE for Show All User Appointment History Page (resources/admin/showappointment.blade)

```
<!-- For the alert -->
<script>
  var closeButton = document.getElementById('closeButton');
  closeButton.addEventListener('click', function() {
    var alertElement = closeButton.closest('.alert');
    alertElement.style.display = 'none';
  });
</script>
```

**Just like the other make table
(width: 10px), and alert**

APPOINTMENT

CODE for Show All User Appointment History Page
(resources/admin/showappointment.blade)

```
resources > views > admin > showappointment.blade.php

111
112     <tbody>
113         @foreach($data as $appoint)
114             <tr align="center" style="background-color:white;">
115                 <td>$appoint->name</td>
116                 <td>$appoint->email</td>
117                 <td>$appoint->phone</td>
118                 <td>$appoint->doctor</td>
119                 <td>$appoint->date</td>
120                 <td>$appoint->message</td>
121                 <td>$appoint->status</td>
122                 <td>
123                     | | <a class="btn btn-primary" href="{{url('approved', $appoint->id)}}>Approved</a>
124                 </td>
125                 <td>
126                     | | <a class="btn btn-danger" href="{{url('cancelled', $appoint->id)}}>Cancelled</a>
127                 </td>
128             </tr>
129         @endforeach
130     </tbody>
131     </table>
132     </div>
133 </div>
134 </div>
```

CONTROLLER (Routes/web.php)

```
Route::get('/approved/{id}', [AdminController::class, 'approved']);
Route::get('/cancelled/{id}', [AdminController::class, 'cancelled']);

// Admin Controllers (User Back-End)
Route::get('/showdoctor', [AdminController::class, 'showdoctor']);
Route::get('/deletedoctor/{id}', [AdminController::class, 'deletedoctor']);
Route::get('/updatedoctor/{id}', [AdminController::class, 'updatedoctor']);
Route::post('/editdoctor/{id}', [AdminController::class, 'editdoctor']);
```

Explanation :

- The code uses a `foreach` loop to iterate through the `$data` array, which presumably contains appointment objects.
- For each appointment object, a new table row (`<tr>`) is generated.
- Within each row, various appointment details are displayed in individual table cells (`<td>`).
- The appointment details being displayed include name, email, phone, doctor, date, message, and status.
- Two additional table cells are included for action buttons to approve or cancel the appointment.
- The action buttons are represented by anchor tags (`<a>`) with respective URLs for the “Approved” and “Cancelled” actions.

PROCESS OF MAKING APPOINTMENT

USER MAKE APPOINTMENT

INSERT NAME AND GMAIL

Make an Appointment

user user@gmail.com

Type '/ to search from your saved info X

user user@gmail.com

user7 user7@gmail.com

user_data

Manage personal info

Submit Request

This screenshot shows the initial step of making an appointment. It features a main input field for 'user' and 'user@gmail.com'. A sidebar on the left lists saved contacts: 'user' (user@gmail.com), 'user7' (user7@gmail.com), and 'user_data'. Below these are links for 'Manage personal info' and a 'Submit Request' button.

CHOOSE DATE APPOINTMENT

Make an Appointment

user user@gmail.com

23/06/2023

---Select Your Doctor---

June 2023 ↑ ↓

Su	Mo	Tu	We	Th	Fr	Sa
28	29	30	31	1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	1
2	3	4	5	6	7	8

Clear Today

Submit Request

This screenshot shows the second step of the appointment process, where the user has selected the date '23/06/2023'. A calendar for June 2023 is displayed, with the 15th and 23rd highlighted. Below the calendar are 'Clear' and 'Today' buttons, and a 'Submit Request' button at the bottom.

USER MAKE APPOINTMENT

SELECT DOCTOR BASED ON SPECIALITY USER (PATIENT) NEED

INSERT PHONE NUMBER AND MESSAGE

Make an Appointment

user user@gmail.com

23/06/2023

---Select Your Doctor---

---Select Your Doctor---

- dr. Siska Natalia S, Sp. A', --- [Pediatric]
